

Mission

The Franklin County Board of Commissioners seeks to partner with nonprofit organizations to meet emerging needs in the community through responsive, time-limited grants that utilize innovative approaches to provide the best possible quality of life for all Franklin County residents.

Strategic Focus

Primary Initiative: Community Partnerships will fund Catalyst and Community Partner grants that increase access to high quality, affordable pre- and post-natal healthcare, and school-based clinics.

Primary Issue: Improve maternal and child health - Goal #8 of Rise Together: a Blueprint for Reducing Poverty in Franklin County is to improve maternal and child health among high disparity groups, struggling financially. Franklin County continues to see high rates of infant mortality among low income women, and particularly women of color. Increased access to high quality prenatal care will help to improve health outcomes for mothers and infants.

Performance Spotlight

Measure: Health Care Services for the Poor (people served)

Program: Community Partnerships Program

About this measure		Why it is important	
<p>This measure tracks the number of Franklin County residents who, through the Commissioners' investment, gained access to health care, prescription medication, or care coordination. The following organizations received grant funding to increase access to health care:</p> <ul style="list-style-type: none"> • Charitable Pharmacy • Heart of Ohio Family Health • Physicians CareConnection • PrimaryOne Health 		<p>In Franklin County, infant mortality is primarily driven by premature births, low birth weight and unsafe sleep conditions. In 2016 black infant mortality was three times the rate of white infant mortality. Connecting women with pre- and post-natal care will help improve outcomes for all pregnant Franklin County women.</p> <p>Without access to care, physical ailments can worsen, increasing health costs. Emergency rooms are often treated as primary care. Connecting patients with medical homes results in improved health and fewer missed days at work and school.</p>	
What is being done			
<p>In 2019, Community Partnership and Catalyst grant funding was awarded in support of Goal #8 of Rise Together: A Blueprint for Reducing Poverty in Franklin County.</p> <ul style="list-style-type: none"> • Catalyst Grant - Heart of Ohio is supporting the implementation of a school-based health clinic at Whitehall Yearling High School to serve students and the larger community. • Partnership Grant - PrimaryOne Health supports their efforts to connect women to prenatal care in the first trimester of pregnancy. PrimaryOne Health is working to reduce the incidence of low birth weight and improve maternal health through early and regular access to prenatal care.

Vacancy Credit

The vacancy credit process is designed to more accurately reflect the true expenditures for Personal Services and Fringe Benefits within the agency budget request. The calculations for the budget process begin with funding all approved positions for the entire year. Vacancy credits take into account that not all approved positions will be filled for the entire year. The methodology historically used by OMB to estimate an agency's vacancy credit utilizes a four-year history of unused personnel budgets to estimate an appropriate vacancy credit. However, vacancy credits may vary from the four-year average due to staffing trends or the number of positions supported within a fund.
