

Mission

The mission of the Tenth District Court of Appeals of Ohio is to provide appellate review and original action determinations for the public and legal community in order to objectively and fairly administer justice in a timely and efficient manner.

Strategic Focus

Primary Initiative: The Court of Appeals has jurisdiction to review and affirm, modify, or reverse judgments or final orders of trial courts within the district and several state administrative agencies. In addition, the Court has original action jurisdiction over the extraordinary writs of Mandamus, Habeas Corpus, Procedendo, Prohibition, and Quo Warranto.

Primary Issue: Caseload - The Court of Appeals continues to monitor its caseload to ensure the efficient use of county resources.

Performance Spotlight

Measure: Number of cases filed

Program: Case Review

About this measure		Why it is important	
The Court of Appeals provides presiding judge reports to the Supreme Court of Ohio quantifying case information such as cases filed, terminated, and pending among other data points. The total number of cases filed includes various case types including criminal and civil cases.		Tracking case data allows the court system to examine operations and ensure justice is administered in an objective, fair, and timely manner. It is in the public's best interest that the Court maintain a reasonable caseload to ensure timely case resolution.	
What is being done			
The Court of Appeals completes presiding judge reports per the Supreme Court of Ohio's Rules of Superintendence. These reports allow Ohio's court system to analyze performance and identify opportunities for improvement. The Court of Appeals case reporting not only informs the court's internal operations but also contributes to Ohio's overall efforts to measure and analyze court system performance.

Vacancy Credit

The vacancy credit process is designed to more accurately reflect the true expenditures for Personal Services and Fringe Benefits within the agency budget request. The calculations for the budget process begin with funding all approved positions for the entire year. Vacancy credits take into account that not all approved positions will be filled for the entire year. The methodology historically used by OMB to estimate an agency's vacancy credit utilizes a four-year history of unused personnel budgets to estimate an appropriate vacancy credit. However, recommendations may vary from the four-year average due to staffing trends or the number of positions supported within a fund.
