

**Mission**

The mission of the Franklin County Municipal Court is to provide a judicial forum for the public and legal community to objectively and fairly administer justice in a timely and efficient manner.

**Strategic Focus**

**Primary Initiative:** Specialized Dockets - The vision of The Specialized Dockets is to enhance public safety, rebuild lives, and reduce recidivism through the use of restorative justice programs. It addresses the problems exhibited by each target population by providing a coordinated, comprehensive approach to treatment and rehabilitation of criminal offenders who satisfy the program's target population.

**Primary Issue:** Specialized Dockets - Over the past ten years, five problem-solving courts have been created and operated at the Franklin County Municipal Court focusing on mental health, drug and alcohol dependency, heroin dependency, military and veteran service, and human trafficking. The Franklin County Municipal Court collaborates with public and private agencies to provide wrap-around care, through the use of appropriate treatment and services, so that the underlying issues that have contributed to a participant's criminal behaviors can be resolved. The results of specialized dockets include a reduction in jail nights for participants, improved community safety through lower recidivism rates, reunification of families, increased home-ownership, and an increase in the number of taxpayers. Overall, participants should be contributing members of the community upon completion of the program.

**Performance Spotlight**

**Measure:** Percent of clients that did not receive new charges in 2 years of programming

**Program:** Municipal Court

About this measure		Why it is important	
This measure tracks the percent of specialized docket clients that do not receive new charges in 2 years of programming. Data is collected from the Franklin County Sheriff's Office database and the Franklin County Clerk's Courtview Database for this measure.		Graduates of problem solving courts are much less likely to commit another crime within three years of admission. Restorative justice is the philosophical foundation of the division. In the context of the municipal court, restorative justice is a process by which offenders take responsibility for their actions, understand the harm they caused, redeem themselves through the process of recovery, become contributing members of their families and the community, increase public safety by ceasing criminal behavior, and reduce the emotional and financial burden on society.	
What is being done			
The Court provides quality programming to high risk/high need participants to link them with individualized treatment, reduce barriers to success, hold participants accountable for the impact of their behaviors, and encourage independent recovery. The Franklin County Municipal Court collaborates with public and private agencies to provide wrap-around care, through the use of appropriate treatment and services, so that the underlying issues that have contributed to participant's criminal behaviors can be resolved.

**Vacancy Credit**

The vacancy credit process is designed to more accurately reflect the true expenditures for Personal Services and Fringe Benefits within the agency budget request. The calculations for the budget process begin with funding all approved positions for the entire year. Vacancy credits take into account that not all approved positions will be filled for the entire year. The methodology historically used by OMB to estimate an agency's vacancy credit utilizes a four-year history of unused personnel budgets to estimate an appropriate vacancy credit. However, recommendations may vary from the four-year average due to staffing trends or the number of positions supported within a fund.

				<b>PY Budget</b>	<b>Average</b>
General Fund	0.0%	-1.6%	0.0%	0.0%	1.6%

The negative vacancy credit in Salaries & Wages is due to the calculation of the vacancy rate excluding the non-bargaining increases that are authorized after passage of the approved budget. The only personnel expenditures for the Municipal Court are the County's 40% share of the Judges and Bailiffs salary and fringe benefits. Therefore, no vacancy credit is included for the Municipal Court.

**Fringe Benefits**

				<b>PY Budget</b>	<b>Average</b>

The negative vacancy credit in Fringe Benefits is due to the calculation of the vacancy rate excluding the non-bargaining increases that are authorized after passage of the approved budget. Therefore, no vacancy credit is included for the Municipal Court.
