

Mission

To promote and protect the health, safety and welfare of every resident, every day in Franklin County by providing timely service to the community and compassionate care to the dogs, offering the highest level of customer service, standard of care, and public education. Working together saves lives, strengthens communities and enhances social opportunities. Empowering the community to support new solutions, so no dog suffers, will enable Franklin County Animal Care & Control to be the most trusted and respected animal welfare organization in our community.

Strategic Focus

Primary Initiative: Demonstrate a high standard of care and cleanliness - While increasing the number of resolved resident dog related complaints and decreasing the shelter's intake of unwanted animals. Raise community awareness regarding the causes and consequences of pet overpopulation through community speaking engagements and education.

Primary Issue: Collaboration - In an effort to maximize lifesaving potential through efficient use of resources the Shelter will continue to collaborate with the University of Wisconsin-Madison School of Veterinary Medicine, the Ohio State School of Veterinary Medicine, Contracted vendors, the Association of Shelter Veterinarians, the United States Humane Society, Franklin County Dog Shelter Advisory Committee, the Courts, Animal Advocates, Dog Rescue Organizations, Volunteers, Staff, local veterinarian's, local veterinarian medicine schools and Community Members. - Animal Care & Control will continue to develop programs to keep animals in homes, shorten length of stay for animals in our care and educate the community on animal welfare issues that benefit our community.

Performance Spotlight

Measure: Number of dogs returned to owners in the field by wardens

Program: Safety

About this measure		Why it is important	
This measure tracks the number of dogs returned to their owners in the field.		Research demonstrates that 33.4% Franklin County Residents struggle financially. Communities with concentrated poverty are denied easy access to transportation. By returning dogs to their owners before they get to the shelter, owners are not burdened with finding transportation or the necessary money to pay redemption fees.	
What is being done			
Wardens are dedicated to increasing redemptions to owners in the field in accordance with Rise Together: A Blueprint for Reducing Poverty in Franklin County. Deputies scan microchip found dogs, look up license numbers, and speak to the community in order to find information on the dog's owners. Once the dog's owners are located, deputies make attempt to contact the owners and return the dog to the owner's home. All community members are being educated about the importance of licensing and microchipping their pets, as well as the spay/neuter services provided by the Shelter. By taking these steps to reunite lost animals with their families without financial or logistical burden of redeeming their dog at the Shelter, community members adversely impacted by poverty are given a greater chance for future success.

Vacancy Credit

The vacancy credit process is designed to more accurately reflect the true expenditures for Personal Services and Fringe Benefits within the agency budget request. The calculations for the budget process begin with funding all approved positions for the entire year. Vacancy credits take into account that not all approved positions will be filled for the entire year. The methodology historically used by OMB to estimate an agency's vacancy credit utilizes a four-year history of unused personnel budgets to estimate an appropriate vacancy credit. However, vacancy credits may vary from the four-year average due to staffing trends or the number of positions supported within a fund.

Request for Results

A Request for Results is a request for additional appropriations to support a new initiative or expand existing services. A Request for Results contains a detailed description of the new initiative, justification for why the increase in appropriations is necessary, and the expected outcomes. In addition to the amount of additional appropriations, a Request for Results should identify any new revenue or savings expected to be achieved from the new initiative. The Office of Management & Budget reviews each Request for Results to determine if adequate justification is provided and sufficient resources are available. The County Administrator makes a recommendation based on this review, with the Board of Commissioners making the final decision on whether the item is included in the budget.
