Emphasis on the effective use of Specialty Court dockets in Juvenile, Municipal, and Common Pleas Court has influenced practice considerations in each Court. - Impacts: The Court will make better use of community resources to address the treatment needs of defendants/ Reaction: Staff will be more aware of these resources and better able to identify treatment needs and work with clients in specialty court to achieve successful outcomes.

Performance Spotlight

Measure: Specialty Court Cases requiring representation

Program: Municipal Court

About this measure		Why it is important	
Data is into our CMS system daily but collected quarterly from our CMS Database. The following Specialty Courts collect data regarding number of pleas for MHC, Catch, ADAP and Veterans Court.		With a renewed emphasis on risk assessment and the use of sentencing alternatives, courts now attempt to determine what caused the behavior that led to the offense and attempt to assist people in overcoming those issues rather than just punishing the offender. The Court will make better use of community resources to address their treatment needs. Reaction: Staff will be more aware of these resources, better able to identify client treatment needs, link them to resources to successfully address the underlying behavior that gave rise to the offense and in doing so, substantially reduce the likelihood of future recidivism	
What is being done			
Specialty Courts, with the assistance of our attorneys and social workers, strive to help defendants overcome their challenges: whether it's housing, counseling, transportation, medical needs, food, etc., so that they can live crime free productive lives.

Vacancy Credit

The vacancy credit process is designed to more accurately reflect the true expenditures for Personal Services and Fringe Benefits within the agency budget request. The calculations for the budget process begin with funding all approved positions for the entire year. Vacancy credits take into account that not all approved positions will be filled for the entire year. The methodology historically used by OMB to estimate an agency's vacancy credit utilizes a four-year history of unused personnel budgets to estimate an appropriate vacancy credit. However, vacancy credits may vary from the four-year average due to staffing trends or the number of positions supported within a fund.
