

Mission

The mission of the Franklin County Office on Aging (FCOA) is to provide centralized access to diverse programs and individualized services for frail and vulnerable older adults and their caregivers so they can preserve their independence and quality of life.

Strategic Focus

Primary Initiative: Increase access to services for older adults living in the concentrated poverty areas of Franklin County. - The Office on Aging will increase access to high quality home and community-based services for older adults living in the concentrated poverty areas of Franklin County.

Primary Issue: Home and Community Based Care The FCOA will focus on increasing client needs by expanding the services provided within Franklin County such as affordable housing, access to transportation, availability of healthy foods, as well access in ensuring digital equity.

Performance Spotlight

Measure: Number of Seniors served in all senior programs

Program: Home and Community Based Care

About this measure		Why it is important	
This measure tracks the number of older adults residing in Franklin County who, through the Commissioners' investment, gained access to essential services which include nutritious food, medical supplies, transportation, affordable housing, and digital equity.		Franklin County's older adult population 60+ will double from 2010 – 2050. Access to quality, affordable, and needed services is fundamental to human existence, stability, and improved health. Access to service is designed to help seniors meet their needs for an active and healthy life.	
What is being done			
FCOA plans to address this by providing services which include: home repairs, home modifications, lawn care, snow removal, pest control, moving & packing, transportation, nutritional supplements, general and deep cleaning, and home delivered meals to seniors in Franklin County.			
This measure aligns with Goal #5 from "Rise Together: A Blueprint for Reducing Poverty in Franklin County" that aims to increase the supply of and equitable opportunity to access quality housing and Goal #10, which aims to improve overall environmental conditions in neighborhoods of concentrated poverty so that they are safe, walkable, and have easy access to basic resources, including access to nutritious food.

Budgeted FTE History

Vacancy Credit

The vacancy credit process is designed to more accurately reflect the true expenditures for Personal Services and Fringe Benefits within the agency budget request. The calculations for the budget process begin with funding all approved positions for the entire year. Vacancy credits take into account that not all approved positions will be filled for the entire year. The methodology historically used by OMB to estimate an agency’s vacancy credit utilizes a four-year history of unused personnel budgets to estimate an appropriate vacancy credit. However, vacancy credits may vary from the four-year average due to staffing trends or the number of positions supported within a fund.

Request for Results

A Request for Results is a request for additional appropriations to support a new initiative or expand existing services. A Request for Results contains a detailed description of the new initiative, justification for why the increase in appropriations is necessary, and the expected outcomes. In addition to the amount of additional appropriations, a Request for Results should identify any new revenue or savings expected to be achieved from the new initiative. The Office of Management & Budget reviews each Request for Results to determine if adequate justification is provided and sufficient resources are available. The County Administrator makes a recommendation based on this review, with the Board of Commissioners making the final decision on whether the item is included in the budget.

Additional Case Managers to Maintain Manageable Caseloads		
Fund Type	New Positions	Amount
Non-General Fund	8.00 FTEs	\$646,964
<p>Description: This request is for the addition of 8 full-time Case Managers (annual salary of \$47,507 each), to allow the agency to meet the increased enrollment demand due to the growth of the senior population and the expansion of services. This request consists of the following:</p> <ul style="list-style-type: none"> • Four case managers to support and provide case management services to older residents and help the agency maintain more manageable caseloads. • Two additional case managers to expand the Hospital Care Transition pilot that places case managers onsite at emergency departments, working with hospitals to connect with admitted seniors who are deemed high risk for readmission. The Hospital Care Transition pilot was approved for one hospital in the 2023 Budget. Adding these case managers in 2024 will allow FCOA to expand into a second area hospital. • Two additional case managers to expand its current program to place staff on-site at community centers at community-based locations within Franklin County. FCOA began placing case managers in the Whitehall Senior Center and YMCA in 2023. Adding these case managers in 2024 will allow FCOA expand into a second community. <p>With the continued growth of the senior population (now 18% of the total county population), and the expansion of services, the enrollment demand has increased significantly. The average caseload per case manager has increased from 129 in 2021 to an estimated 200 by the end of December 2023. The industry standard recommended caseload is 135 cases/case manager. Research has demonstrated that higher caseloads put a strain on the workforce and can negatively impact performance and retention efforts. More manageable caseloads also led to better outcomes for seniors. Adding these case managers will best position FCOA to meeting the changing needs of the senior population in Franklin County.</p>		

Levy Plan Comparison*

The Human Services Levy Review Committee (HSLRC) evaluates levy requests to assure that levy funded agencies have demonstrated prudent programmatic and financial planning. In developing the levy fiscal plan, the HSLRC recommends that the ending cash balance equal at least three months of expenditures at the end of the levy cycle. Each year as a part of the budget process, the Office of Management & Budget compares current year revenue and expenditure projections and budget to the HSLRC levy plan to determine if the agency is on track to end its current cycle with the recommended cash balance.
