

#### Mission

The mission of the Office of the Franklin County Prosecuting Attorney is to provide effective and efficient legal representation and advice; aggressive prosecution of adult and juvenile offenders; and protection to government clients and victims of crime so that they can receive adequate legal advice, justice, and representation.

### **Strategic Focus**

**Primary Initiative:** Legal Matters - Adjudicate, prosecute, and represent all matters presented to the Office within the legal parameters required by law while providing mandated services and justice to all clients and victims of crime.

**Primary Issue:** Policy Changes - Changes in policy made by outside agencies may cause a temporary or permanent spike in workload. Submission of information in electronic or digital formats which the system cannot accept slow down the work processes in the Prosecutors Office. - As our office continues to deploy the new case management system, we are experiencing workflow changes and have been in contact with the vendor to make necessary adjustments. We are also actively working with our vendor toward bringing the last arresting agency onboard to allow that agency to send information electronically. This will further impact our workflow and employee duties.

| Prosecutors and support staff assigned to work with the Drug Court Program attend daily arraignment<br>hearings at the Franklin County Municipal Court and take note of low-level felony drug possession cases<br>involving adult offenders. Our office attempts to get these offenders into appropriate treatment to address<br>their drug addiction and progress into other level of treatment for other problems. Prosecutors evaluate<br>cases for treatment. Cases that qualify for Drug Court Program are presented to that Court during a<br>hearing where the offender enters a guilty plea to a misdemeanor crime and enters the program.<br>Prosecutors attend "staffing" meetings for the various treatment courts and with our input, the Court<br>determines the best treatment plan for the offender. The offender must comply with all the conditions of<br>that program. By successfully meeting all the requirements of the Drug Court Program the offender is<br>removed from prosecution through the felony justice system and hopefully will not re-offend |  |   |  |  |

## **Budgeted FTE History**

#### Vacancy Credit

The vacancy credit process is designed to more accurately reflect the true expenditures for Personal Services and Fringe Benefits within the agency budget request. The calculations for the budget process begin with funding all approved positions for the entire year. Vacancy credits take into account that not all approved positions will be filled for the entire year. The methodology historically used by OMB to estimate an agency's vacancy credit utilizes a four-year history of unused personnel budgets to estimate an appropriate vacancy credit. However, vacancy credits may vary from the four-year average due to staffing trends or the number of positions supported within a fund.

#### **Request for Results**

A Request for Results is a request for additional appropriations to support a new initiative or expand existing services. A Request for Results contains a detailed description of the new initiative, justification for why the increase in appropriations is necessary, and the expected outcomes. In addition to the amount of additional appropriations, a Request for Results should identify any new revenue or savings expected to be achieved from the new initiative. The Office of Management & Budget reviews each Request for Results to determine if adequate justification is provided and sufficient resources are available. The County Administrator makes a recommendation based on this review, with the Board of Commissioners making the final decision on whether the item is included in the budget.
