

Mission

The mission of the Franklin County Office of Justice Policy & Programs (OJPP) is to provide system-wide comprehensive justice planning and oversight, identify training and technical assistance needs and direct the efficient and effective application of Federal, state and local funds toward developing and sustaining projects and programs that support smart justice, ingrains diversity, equity and inclusion in daily practice, and deliver quality services to the Franklin County community to enhance their health, safety, and welfare in the context of the criminal justice system.

Strategic Focus

Primary Initiative: Office of Justice Policy and Programs Reentry- By June 30, 2025, the Franklin County Criminal Justice Planning Board will develop and adopt a comprehensive Blueprint to Reentry to guide collective efforts through CY2028. By December 31, 2025, a minimum of 300 individuals identified as at risk for an opioid use disorder will receive medication assisted treatment pre-release and be linked with a community provider for post release care. OJPP will distribute a minimum of 3000 naloxone kits to justice involved individuals at risk for an opioid related overdose. The Rapid Resource Centers co-located at both Franklin County Correctional Centers will be staffed and operational 24/6. Over 4000 justice involved residents and/or their family members will receive services through the Rapid Resource Center and the Safer Stations program will link 300 individuals directly to detox and/or residential treatment.

Primary Issue: Reentry - Pervasive barriers preventing justice impacted residents and their families from being successful. Barriers include stigma, lack of affordable and accessible housing, substance use and mental health treatment and unemployment/under-employment. Failing to adequately address the needs of justice impacted residents will lead to higher unemployment and poverty rates, lower recovery rates from substance use and mental health, homelessness, jeopardized public safety outcomes, and intergenerational cycles of criminal justice involvement disproportionately impacting Black, Indigenous, and Other People of Color (BIPOC) communities. - The Franklin County Criminal Justice Planning Board and the Franklin County Reentry Advisory Board will adopt coordinated action steps that address barriers facing justice impacted residents and their families. OJPP will continue participation in the Franklin County Health and Human Services (HHS) collaboration to increase access and equity of County based services to all Franklin County residents.

Vacancy Credit

The vacancy credit process is designed to more accurately reflect the expenditures for Salaries & Wages and Fringe Benefits within the agency budget request. The calculations for the budget process begin with funding all approved positions for the entire year excluding new positions contained in a Request for Results. Vacancy credits take into account that not all approved positions will be filled for the entire year. The methodology historically used to estimate an agency's vacancy credit utilizes a four-year history of unused personnel budgets to determine an appropriate percentage of Salaries & Wages and Fringe Benefits that will likely remain unspent at the end of the year. However, vacancy credits may vary from the four-year average due to staffing trends or the number of positions supported within a fund. Vacancy Credits may also differ between Salaries & Wages and Fringe Benefits due to the timing and fixed amount charged for healthcare.

Salaries & Wages

	2024 Budget	Four-year Average	2025 Approved	2025 Credit	2025 FTEs

Request for Results

A Request for Results is a request for additional appropriations to support a new initiative or expand existing services. A Request for Results contains a detailed description of the new initiative, justification for why the increase in appropriations is necessary, and the expected outcomes. In addition to the amount of additional appropriations, a Request for Results should identify any new revenue or savings expected to be achieved from the new initiative. The Office of Management & Budget reviews each Request for Results to determine if adequate justification is provided and sufficient resources are available. The County Administrator makes a recommendation based on this review, with the Board of Commissioners making the final decision on whether the item is included in the budget.

Response to Domestic Violence				
Fund Type New Positions Amount				
Non-General Fund N/A \$580,278				

Description: This request includes support of the Batterer's Intervention Program within the Franklin County Municipal Court. Historically, the Court has outsourced this type of programming but has determined bringing the program in-house may improve the quality-of-service provision for the two-thousand individuals participating annually. In addition, this request also supports ongoing support of the Blueprint to Safety Initiative, which is also in partnership with the City of Columbus, to implement the recommendations of the multi-year planning initiative.

CASA Operations

Core Principle and Linkage

Provide Community Safety, Security & Effective Justice

CASA of Franklin County links to this core principle by training community volunteers to become Guardians ad Litem (GALs), who then advocate in court for the best interests of abused and neglected children. Through consistent visits with the child, CASA volunteers get to know the child's circumstances and wishes well enough to make fact -based recommendations to the Juvenile Court about custody, placement, visitation and services. GALs gather information by making monthly visits with the child, interviewing important figures in the child's life, attending meetings about the child's welfare, writing monthly reports and appearing in court as the child's advocate. According to data compiled by the Ohio Colleges of Medicine Government Resource Center for the Ohio CASA/GAL Association, children who have a Franklin County Court Appointed Special Advocate are more likely to find a safe and stable permanent home, are more likely to succeed in school and are less likely to re-enter the foster care system. CASA of Franklin County is the only organization in Franklin County that provides volunteer GALs.
