

Mission

The Franklin County Treasurer’s primary responsibility is the collection of real estate taxes. In addition, we are tasked with the management of the County’s financial assets, providing safety, liquidity and earning a market rate of return. We will manage the assets honestly, efficiently and responsibly to ensure the Treasurer’s Office is governed in a professional manner that will be transparent to the residents of Franklin County. The Treasurer’s Office will optimize the use of Franklin County’s assets through the employment of technology, efficient banking practices and sensible management.

Strategic Focus

Primary Initiative: Investment Policy - The investment objectives of the County, in priority order, include compliance with all federal and state laws, safety of principal to ensure the preservation of capital, sufficient liquidity to meet all current obligations of the County, and managed to consistently attain a market rate of return throughout budgetary and economic cycles.

Primary Issue: Portfolio Management - Changes in interest rates set by the Federal Reserve will impact the County’s Investment Portfolio. - The Treasurer’s Office will work with the Investment Advisory Committee and the County’s designated investment advisor to meet the investment objectives of safety, liquidity, and yield.

Performance Spotlight

Measure: Portfolio Yield to Maturity

Program: Portfolio Management

About this measure		Why it is important	
This measure is the rate of return on the County’s core portfolio. The market value of securities in the County’s portfolio will increase or decrease based upon changes in the general level of interest rates and the average duration.		Increases in the County’s rate of return provides additional resources to support our residents. However, this must be balanced against the higher priorities of safety of principal to ensure the preservation of capital and sufficient liquidity to meet all current obligations of the County. Such priorities and guidelines are based upon eligible investments pursuant to Section 135.35 of the Ohio Revised Code, and prudent money management.	
What is being done			
The Treasurer’s Office works with the Investment Advisory Committee and the County’s designated investment advisor to meet the County’s investment objectives. The effects of market value fluctuations will be minimized by (1) maintaining adequate liquidity so that current obligations can be met without a sale of securities; (2) diversifying maturities; (3) diversifying assets.

Budgeted FTE History

Vacancy Credit

The vacancy credit process is designed to more accurately reflect the expenditures for Salaries & Wages and Fringe Benefits within the agency budget request. The calculations for the budget process begin with funding all approved positions for the entire year excluding new positions contained in a Request for Results. Vacancy credits take into account that not all approved positions will be filled for the entire year. The methodology historically used to estimate an agency's vacancy credit utilizes a four-year history of unused personnel budgets to determine an appropriate percentage of Salaries & Wages and Fringe Benefits that will likely remain unspent at the end of the year. However, vacancy credits may vary from the four-year average due to staffing trends or the number of positions supported within a fund. Vacancy Credits may also differ between Salaries & Wages and Fringe Benefits due to the timing and fixed amount charged for healthcare.

Salaries & Wages

	2024 Budget	Four-year Average	2025 Approved	2025 Credit	2025 FTEs
